## WHO WE ARE

ESG Lynk's purpose is to accelerate the sustainability of businesses by guiding companies through the sustainability reporting process in a way that creates long-term value and enables better peer-to-peer comparison.

We are a sustainability reporting and consulting firm that focuses on linking industry specific Environmental, Social and Governance (ESG) reporting metrics to a company's financial performance.

We simplify the sustainability reporting process across functions and stakeholders.

## CHALLENGES WE SOLVE

- ✓ Meeting investor demands for decision-useful sustainability information
- ✓ Reaching sustainability targets and ensuring consistency in reporting throughout the supply chain
- ✓ Linking to existing reporting processes and integrating data from multiple sources

## SOLUTIONS WE PROVIDE

- ✓ Sustainability reports with financially-material and industry specific metrics
- ✓ Sustainability reporting programs designed for suppliers, investments and subsidiaries
- ✓ Streamlined integration of corporate functions and consistency with SEC reporting

*"I chose ESG Lynk because I trusted the team to deliver on time, with high quality, and affordability. ESG Lynk helped me stay organized with a large volume of data and turned that data into a story."*

~ CFO of \$37 billion energy private equity firm
