WHO WE ARE

ESG Lynk's purpose is to accelerate the sustainability of businesses by guiding companies through the sustainability reporting process to attract capital and create long-term value.

We are a sustainability strategy and reporting firm that focuses on linking industry specific Environmental, Social and Governance (ESG) metrics to a company's strategy and financial performance.

We help companies define their ESG strategy and tell their story while simplifying the sustainability reporting process across functions for all stakeholders.

CHALLENGES FOR COMPANIES

- ✓ Meeting investor demands for decision-useful sustainability information
- ✓ Identifying relevant ESG topics to align with company business strategy
- ✓ Reaching sustainability targets and ensuring consistency in reporting throughout the company's network (supply chain, portfolio companies, subsidiaries, etc.)
- ✓ Linking to existing reporting processes and integrating data from multiple sources

SOLUTIONS WE PROVIDE

- ✓ Sustainability reports focused on financially-material and industry specific metrics
- ✓ Sustainability reporting programs designed for suppliers, investments and subsidiaries
- ✓ Streamlined integration of corporate functions and consistency with SEC reporting
- ✓ Executive ESG training
